

The Holocaust Rescue that Made A State

Haavara

Now the Story Will be Told

When all nations failed, only one group—the Zionist Organization—had the courage to boldly face the Nazi hierarchy to save 60,000 German Jews, transferring them to Jewish Palestine with their assets to build a new life—as Moses had done millennia before. Famed *New York Times* bestseller Edwin Black, author of *IBM and the Holocaust*, has authorized this first-ever translation of his critically acclaimed and revelatory book *The Transfer Agreement*.

OVERWHELMING. Black's research is striking in its dimension and scope. The vast uncovering of source material and its extensive use are almost overwhelming. Yoav Gelber, Yad Vashem
